

My Visit to the Dental Hub

Small Hub

I have arrived at the Bee Healthy Dental Hub for my appointment.

I will enter through the front door.

I will wait in the waiting room until the dental therapist comes to get me for my appointment.

The dental therapist will come and get me from the waiting room.

They might be wearing a colourful gown, mask, a visor, and gloves.

I will walk down the corridor to the dental room.

I will arrive at the dental room.

I will sit down in the big blue dental chair.

There are sunglasses I can wear to protect my eyes from the bright lights.

There is a metal tray with tools attached to the dental chair.

There is a bright light above my head to help the dental therapist see my teeth.

There will be a TV on the ceiling for me to watch during my appointment.

I can ask for it to be turned on.

If I don't want it on I can ask for it to be turned off.

When I am ready, the dental therapist will lay the chair back
so I am lying down.

The dental therapist will use a mirror, probe, and tweezers to check my teeth.

The dental therapist might put a cotton roll in my mouth with the tweezers.

The cotton roll is soft and feels a bit dry.

The mirror is used to look around my mouth at all of my teeth.

The probe is used to gently feel my teeth to see how healthy they are.

The dental therapist might use this tool to blow air on my teeth.

This helps them to see my teeth better.

The dental therapist might take a picture of my teeth called
an x-ray.

They will use this machine to take the picture.

I will need to put this plastic piece in my mouth to get a good picture of my teeth.

The plastic piece sits inside my mouth and I bite down on it.

I will sit on a chair while the x-ray is taken.

I need to sit very still while the dental therapist takes the
photo.

The dental therapist might paint some fluoride varnish on my teeth using a small paint brush.

The brush is soft.

The fluoride varnish tastes sweet and feels a bit sticky.

This protects my teeth and makes them strong.

My appointment has finished. I can sit up and go home.

I might get a letter to take home to my parents.

It tells them what my teeth look like and when my next visit
will be.
